SEVENTH YEAR.

MAYSVILLE, KY., THURSDAY, FEBRUARY 10, 1898.

ONE CENT.

## We All Know

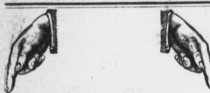

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. If you have a dull pain about the eyeball, or if, when reading, the letters seem to run together, call and be relieved. We charge nothing for examination, and guarantee satisfaction in every case.

BALLENGER,  
Jeweler and Optician.

### Purely Business!

The columns of a newspaper represent a real value. No publisher can afford to give advertising "notice" free any more than a merchant can give his customer a gift of 97 goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

# 1-3 OFF!

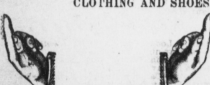

This means that we will sell, beginning today until the 15th of February, every Suit, every pair of Pants, every Overcoat (not a garment is reserved) in our house one-third less than the regular legitimate price. It is needless to tell you of the merits of our merchandise. So house in the state competes with us in style and quality.

## We Handle Only the Highest Grades of Clothing.

Moreover, we never indulge in fake advertisements. You ask why this tremendous reduction in our prices. We answer, do you know that up to date we have not had a week's cold weather all this winter? We are stuck on Heavy Suits and Overcoats and for two reasons must unload. The most important is we need the money for thirty odd thousand dollars worth of clothing on hand. The other reason is our spring purchases are beginning to come in. It will take lots of room for them. Look in our windows and you will see what one third off means.

A striking instance of this is a 15c Turkish Bath Towel, 42x30 inches, at 9c. Towels of regular 15c quality 3c; 50c quality 15c, 30c quality 10c. A heavy wide crabs, bleached and unbleached, warranted made of pure flax, sold everywhere at 84c, our price 6c. A great stock of high grade Linens at prices very below others. Some recent arrivals of latest fashions in our Fancy Goods Department: Pompadour Combs at 10c, Point D'Espirit Ties, good width and extra long, at 30c and upwards; Ladies' Silk Ties, dainty shades and nobly plaid, 75c and upwards; extra special length, can be used for sashes, \$1.35. Devices of Dame Fashion will find it to their interest to give this department a critical inspection.

ROSENAU BROS., PROPRIETORS BEE HIVE, KINGS OF LOW PRICES.

### MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

### THE LEADER'S WEATHER SIGNALS.

White streamers—TALENT.

Blue—RAIN or SNOW.

With Black ABOVE—TWO WARMER.

If Black's BENEATH—COLDER! Will be!

Unless Black's shown—no change we'll see.

The above forecasts are made for a period of thirty hours, ending at 10 o'clock to-morrow evening.

### MORE NEW CARS.

This Time the Maysville Electric Railway Company Are the Purchasers.

Patrons of the Maysville Electric Railway will this summer enjoy their rides in new handsome motor cars.

Four new motors, thirty feet in length, with a seating capacity of fifty, have been purchased, and will be here from Chicago in a few days. The cars are made after the latest and most up to date model, are provided with rolling craters, and can be used in summer and winter.

They are regular accommodation cars, and with the motors already in use the Company can then easily handle the largest crowds.

With these new additions the Electric Railway will be as complete as any in the state, and citizens should show their appreciation of the efforts of the managers to secure a prompt and commodious mode of transfer.

They also owed M. Linn & Co. \$85, and William F. Linn of that firm succeeded in effecting a settlement with them.

The movers had about \$6,000 in cash.

### FLOTSAM—JETSAM—LIGAN!

NEWLY NOTED FROM NATURE'S GREAT HIGHWAY.

The rivers at headwaters are about stationary, but a rise is looked for in a day or two, as the thawing weather is having its effect on the creeks and small streams.

A force of 35 carts and 150 men was put to work cleaning the grade at Louisville of the mud and debris left there by the recent high water. There's none on the Maysville grade.

The steamer New South left Cincinnati yesterday at 5 p. m. on her annual grand Mardi Gras excursion with the largest crowd of passengers taken South in years, all her staterooms being filled.

The new sidewheel Vicksburg and Greenville packet Belle of the Bonds was launched at Howard's shipyard yesterday. She is 210 feet long, 32 feet beam, 7 feet hold, has a fine cabin, big power and will be very fast.

A short time ago a consignment of 29 dogs was shipped on the steamer Courier.

Upon arrival at Cincinnati one of the dogs died. The owner, Mr. Wells, demanded payment for the dead hog. As it was through no fault of or mistreatment on the part of the steamboat crew payment was, of course, refused. Mr. Wells brought suit at Brookville to recover the value of the hog, and Captain Waitshed, Master of the Courier, telegraphed Commodore Laidley at Cincinnati that the suit had been tried at Brookville and that the steamboat won.

Congressman E. E. Robbins of Greensburg, Pa., is very enthusiastic on the subject of improving the Youghiogheny River in Pennsylvania, and has asked his constituents to secure signatures to a petition urging Congress to take steps toward making the Youghiogheny a slackwater stream, and navigable for all boats running into Pittsburgh. There are over 100,000 persons residing in the Youghiogheny Valley, and it is one of the richest coal fields in the world. With river navigation into the world-famous Connellsville coke region, there is no telling what the future of the Youghiogheny Valley might be. The entire region is rich in all natural resources, and by making the river navigable great benefit would undoubtedly follow. It was formerly navigable by a system of wooden logs and dams, operated by a private corporation, but the system was inadequate, and being badly crippled by a disastrous ice break-up many years ago, was allowed to go to ruin.

THE DEVIL.

Mr. William Davis.

Your Semi-Cannel Coal is o.k. It ignites quickly, gives a strong, steady heat and keeps long splendidly. That it is the only Coal that will effect that mark down here who used Pommeroy when he could get Kanawha at the same price. No more Pommeroy in mine. Kanawha is a good coal, but I can give you a better make enough heat for me. They may fool me on a few things, but I can give you a better makes when it comes to Coal. That's my long run. Look out for my next letter. Will give you a pointer on that straight and narrow way and tell how much cheaper semi-cannel is than any other Coal. There'll be a hot time down here now on. Good-bye.

"The best way to get rid of a bad law is to enforce it."—General Grant.

THE LEDGER having been named as Senator DEBOE's official organ—exclusively, however, for the dissemination of Garden Seeds—another word about them may not be out of tune. The authorization has been printed on two former occasions, but at the risk of being voted prosaic it is produced once more—a great deal of a good thing sometimes being admissible.

In polite vernacular, "just git onto it."

UNITED STATES SENATE.  
WASHINGTON, D. C., Jan. 19th, 1898.  
Thomas A. Davis, Esq., Maysville, Ky.  
—Dear Sir: I send you 100 packages Vegetable Seeds, 3 packages Flower Seeds, 3 packages Tobacco Seeds, 3 packages Viola Villosa. Please distribute these to the friends of Senator DEBOE in Mason and Bracken counties. Do not want any to go into the hands of any one who is fighting him, or in sympathy with those who are doing so. Respectfully,  
W. J. Lyons, Secretary.

If there's one thing more than any other that THE LEDGER desires it is to serve its friends.

In this it has never failed.

The hour was never too late nor the midnight oil too scarce to prevent a write-up of the meritorious points of the Republican entry in the stake-race; nor was ever the distance too great or the weather too cold or the night too dreary to deter its hired man from making jukings and howling himself hoarse in behalf of the party candidate.

But these feeble services are now outweighed three thousand and six and a half times over by the unexpected honor that has fallen from above upon the devoted balldhead of the Editor.

Stand aside, gentlemen, and permit the Official Disseminator of Garden Seeds to pass!

"Them seeds" are here;—that is, "part of 'em is." The counting machine broke down along in the '90's, but let it go at 100 packages of Vegetable Seeds, with a single package each of Corn, Cucumber and Onion in the whole lot.

But there are Turnips and Peas galore!

How considerable, and withal how like the late lamented Colonel SELLERS, who thought a Philosopher could never be a Senator.

Dear WILLIAMS, at least one of you knew that the Ohio River was near and that water was cheap.

Even an Editor might exist on Turnips and Water—and Peas would follow later!

Then the 2 packages of Tobacco Seed are safe at hand and will be placed where they will raise the choicest weed.

But the 5 packages of Flower Seed are in swampum—and there'll be mourning for the flowers that won't bloom this spring.

And there's the 2 packages of Viola

**THE BUYERS' GUIDE.**  
**GET THE PUSH.**  
Walk in, stumble in, fall in, get in in any old way—for your own sake get in the procession of your economical, close-buying neighbors, who are daily thronging our store. They know a good thing when they see it. Don't you be behind the times.

**The War Is Over!** And the wartime prices that you have been paying for furniture and implements have to go, for the Price Fighter is now in Maysville, Ky., and selling goods to beat the band on his famous 10 per cent. plan. Do you know what that means? We buy them right—assigned, bankrupt and overstocked factories always find us ready to buy their goods at 60c. on the dollar—we add 10 per cent. (that's our profit) then we sell them to you quick. Thus you are enabled to buy Furniture and Farm Implements of us at just about half what the other fellows ask you for the same goods.

**A VALUABLE LESSON IN DISC HARROWS.**  
You have been paying \$38 to \$40, haven't you? Come to Winter the Price Fighter and get a fine Disc Harrow for \$19.50.

**A LESSON IN LAND PLOWS**  
that means dollars to you. Your bills for plow points, mold boards, etc., have been enormous, haven't they? That's because the chilled plows that you have been using were not chilled right. Only one proper way to chill a plow, and "Vulcan" owns the patent. There is only one proper way to chill a mold board, again "Vulcan" owns the patent. The Vulcan Plow has been used without the use of a pin, wedge or bolt. Think of it! We know men who have used one Vulcan Plow 7 years and worn out only two points. Vulcan Points are not made to wear out; they are made to last. Come in and get a Vulcan Plow. Take it to your farm, give it a trial; it will not suit you in every respect bring it back and we will refund every cent of your money that you paid for it. Know it. If there is a better plow than you have been using, surely you want to know it, don't you?

**FARM WAGONS.**  
There is a better Farm Wagon than you are using. It's made way down South in the woods where hickory is plentiful. They use only the first, or butt, cut of second growth hickory. The rest of the wood is made to other wagners. On the opposite mountain is an iron mine. Iron is plentiful and no cost for transportation. It is the best ironed wagon that you ever saw. Its name is the "FLORIAN" WAGON. We are just receiving a carload, all sizes and styles. They are bought right, and you can bet that they will be sold right. For your own sake don't fail to see this Wagon before buying.

**A Special Bargain in Furniture!**  
Just to keep people guessing and wondering where we get 'em, we will sell you this fine Oak or Imitation Mahogany, hand-carved, leather-seat Rocking Chair  
**FOR \$2.25.**  
Come quick, we only have twenty-two of them.
